

Building Automation/ Energy Management Systems Technician

Provident Energy Management Inc., a member of the Tridel™ Group of Companies, is a leading energy services provider in the Greater Toronto Area specializing in high-rise residential buildings. We are currently seeking an individual to join our Building Automation and Monitoring Team as a **Building Automation/ Energy Management Systems Technician**.

Responsibilities

- Monitor Energy Management Systems in all our client buildings
- Operation of HVAC Systems
- Assist in programming, commissioning and trouble-shooting of Building Energy Management Systems
- Support Operations by assisting in-house and third-party Technicians in the field
- Support our Customers by providing telephone and computer assistance
- Some On-Call is included in the position

Qualifications

- Knowledge of HVAC System components such as Air Handlers, Boilers, Chillers, and Variable Frequency Drives.
- Excellent communications skills, both verbal and written.
- Exceptional problem solving, organizational and time management skills are essential.
- Excellent Customer Services skills.
- Certificate in Building Environmental Systems (BES/BSET) or related program would be an asset.
- This position will require some travel within the Greater Toronto Area – **a valid Ontario license and reliable vehicle will be necessary for site visits.**

Salary and Benefits

- Salary commensurate with experience
- Benefits and car allowance provided
- As an entry level position, there is room for growth with our on-going training program

How to apply

Please send a resume and cover letter to: info@pemi.com in Word or PDF format. No phone calls or faxes. Only those applicants being considered for an interview will be contacted.
